

Log of Contact January 2026

1. This document contains a log of forecast round meetings that took place ahead of our publication. The meetings took place as the Commission developed its forecasts which were published on 13 January 2026. The log also records any contact between Commissioners and Ministers or Special Advisors within the same period.
2. The Commission held several meetings with officials from across the public sector. These meetings were designed to ensure we were challenged on our judgements, and that we were using the best available information to inform our forecasts. These took the form of several rounds, which were held in November and December 2025, and January 2026.
3. The log aids understanding of the process the Commission went through in constructing our forecasts. Throughout the forecasting period our interaction with the Scottish Government has been guided by our protocol for engagement.¹
